

## Summary:

### Refrigeration and logistics complex for sale

---

#### Success factors of the complex:

comfortable geographical location of the enterprise;

the advanced equipment that meets all the requirements of standards ISO 9001, ISO 22000;

highly qualified staff, trained at the best enterprises in Ukraine and Europe;

staff is ready to perform any assigned tasks;

favorable terms of cooperation and partnership.

A modern enterprise for the reception, storage and pre-sale processing of fruits and vegetables. The complex's capacities are designed to accept vegetables from the field up to 60 tons/hour and provide the ability to store up to 20,000 tons of products at the same time.

The complex is equipped with advanced European refrigeration equipment, receiving bins, electric and gas forklifts. The equipment allows to work in a wide range of temperature conditions (0 - 10 °C), to constantly monitor the pathogenic situation, to provide a wide range of humidity control (70-95%) and has the function of drying the product before storage.

In 48 specialized chambers with an area of 65 to 300 m<sup>2</sup> it is possible to store potatoes, onions, carrots, beets and other types of fruit and vegetable products. Selection of areas according to the principle of an individual camera for each client.

Fruit and vegetable products which was grown by reliable partners in all regions of Ukraine undergo a full cycle of pre-sale preparation at the enterprise, namely: washing, polishing, drying root crops, grading into fractions (in length and diameter), trimming the tops (tails) of onions. The company's specialists carry out quality control, packaging of products with own trademark "Vegetable House".
